REP. NICHOLAS BEGICH

AK

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost approximately 6,500 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The Strategic Organizing Center (SOC) reported a dramatic decrease in active workers as of August 2025 compared to March 2024. They found that the **SSA lost 1,862 field office workers — a 9% decrease, leaving just 19,731 active field office workers positioned throughout the country**.

REP. MELANIE STANSBURY

NM-01

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost approximately 6,500 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The Strategic Organizing Center (SOC) reported a dramatic decrease in active workers as of August 2025 compared to March 2024. They found that the **SSA lost 1,862 field office workers — a 9% decrease, leaving just 19,731 active field office workers positioned throughout the country**.

REP. GEORGE LATIMER

NY-16

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost approximately 6,500 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The Strategic Organizing Center (SOC) reported a dramatic decrease in active workers as of August 2025 compared to March 2024. They found that the **SSA lost 1,862 field office workers — a 9% decrease, leaving just 19,731 active field office workers positioned throughout the country**.

PA-03

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost approximately 6,500 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The Strategic Organizing Center (SOC) reported a dramatic decrease in active workers as of August 2025 compared to March 2024. They found that the **SSA lost 1,862 field office workers — a 9% decrease, leaving just 19,731 active field office workers positioned throughout the country**.

SC-05

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost approximately 6,500 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The Strategic Organizing Center (SOC) reported a dramatic decrease in active workers as of August 2025 compared to March 2024. They found that the **SSA lost 1,862 field office workers — a 9% decrease, leaving just 19,731 active field office workers positioned throughout the country**.

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost approximately 6,500 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The Strategic Organizing Center (SOC) reported a dramatic decrease in active workers as of August 2025 compared to March 2024. They found that the **SSA lost 1,862 field office workers — a 9% decrease, leaving just 19,731 active field office workers positioned throughout the country**.
