

Rep. James Himes

CT4

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost more than 7,000 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The American Federation of Government Employees Council 220 reported a dramatic decrease in field office employees as of March 2026 compared to 2019. **We found that the SSA lost 3,850 field office workers – a 17% decrease in seven years, leaving approximately 19,002 active field office workers positioned throughout the country.**

- 10%** decrease in active SSA field office workers in CT4
- 16%** decrease in active SSA field officer workers in Connecticut
- 17%** decrease in active SSA field office workers in the U.S.
- 13%** of total SSA employees **lost** over the past year

SSA expects the total number of beneficiaries and participants in its three major programs to increase to 78.3 million people in FY27.

**Data pulled from March 2026. Data shows decline from 2019 - 2026.*

AFGE Council 220 represents 25,000 front-line Social Security workers in SSA field operations through 34 affiliate locales representing workers in 1,200 field offices, 21 tele-service centers, card centers, and support units nationwide.

Rep. Laurel Lee

FL15

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost more than 7,000 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The American Federation of Government Employees Council 220 reported a dramatic decrease in field office employees as of March 2026 compared to 2019. **We found that the SSA lost 3,850 field office workers – a 17% decrease in seven years, leaving approximately 19,002 active field office workers positioned throughout the country.**

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost more than 7,000 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The American Federation of Government Employees Council 220 reported a dramatic decrease in field office employees as of March 2026 compared to 2019. **We found that the SSA lost 3,850 field office workers – a 17% decrease in seven years, leaving approximately 19,002 active field office workers positioned throughout the country.**

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost more than 7,000 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The American Federation of Government Employees Council 220 reported a dramatic decrease in field office employees as of March 2026 compared to 2019. **We found that the SSA lost 3,850 field office workers – a 17% decrease in seven years, leaving approximately 19,002 active field office workers positioned throughout the country.**
