

Rep. Derek Schmidt

KS2

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost more than 7,000 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The American Federation of Government Employees Council 220 reported a dramatic decrease in field office employees as of March 2026 compared to 2019. **We found that the SSA lost 3,850 field office workers – a 17% decrease in seven years, leaving approximately 19,002 active field office workers positioned throughout the country.**

AFGE Council 220 represents 25,000 front-line Social Security workers in SSA field operations through 34 affiliate locales representing workers in 1,200 field offices, 21 tele-service centers, card centers, and support units nationwide.

Rep. Jake Auchincloss

MA4

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost more than 7,000 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The American Federation of Government Employees Council 220 reported a dramatic decrease in field office employees as of March 2026 compared to 2019. **We found that the SSA lost 3,850 field office workers – a 17% decrease in seven years, leaving approximately 19,002 active field office workers positioned throughout the country.**

AFGE Council 220 represents 25,000 front-line Social Security workers in SSA field operations through 34 affiliate locales representing workers in 1,200 field offices, 21 tele-service centers, card centers, and support units nationwide.

Rep. Gregory Murphy

NC3

While the Administration asserts it has no plans to close Social Security field offices, a new analysis of workforce data indicates that its policies are eroding community-based services nationwide through significant staff reductions. The Social Security Administration has **lost more than 7,000 SSA employees over the past year, leaving SSA in a 59-year staffing low.**

The American Federation of Government Employees Council 220 reported a dramatic decrease in field office employees as of March 2026 compared to 2019. **We found that the SSA lost 3,850 field office workers – a 17% decrease in seven years, leaving approximately 19,002 active field office workers positioned throughout the country.**
